of Correction**

Dear Sir:

Attached is Form PTO-1050 (Certificate of Correction) at least one copy of which is suitable for printing.

A mistake of a clerical or typographical nature, or minor in character appears in the above-referenced patent; however, the mistake occurred in good faith. The correction introduces no new matter nor requires reexamination. The mistake occurred because when document entitled AMENDMENT "A" was mailed on April 27, 2005, the undersigned attorney intended that this application be treated as a continuation of PCT/JP02/01486 filed February 20, 2002 and that the specification be amended so as to include this statement at the beginning of the specification section but erroneously made the request for correction in the specification. Furthermore, Notice of Allowability dated May 15, 2006 indicated the examiner's acknowledgment that a claim of priority as requested by applicant under 35 U.S.C. 119. As a result of both, applicant did not take any further action for correcting the error committed earlier.

Since the applicant's intention to claim the priority based on PCT/JP02/01486 filed February 20,

SEP 29 2006

2002 is believed to have been clear to the examiner, it is applicant's belief that the aforementioned mistake may properly be considered to be of a clerical or typographical nature, or minor in character.

The corrections, together with the exact page number where the errors appear in the application filed are as follows:
